Cover art by Paul Klages

Through personal transformation while dealing with a life-threatening illness (leukemia) and bone pain, Paul Klages started to receive visions of his guides and angels. During self-healing prayer and meditations he is guided to paint the images he now portrays in his work. His intent for you, while viewing his artwork, is to awaken your inner spirit and begin healing your area of greatest struggle. [www.paulklages.com](http://www.paulklages.com)
